PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer with 2+ years of experience designing, developing, and deploying scalable full-stack web applications. Proficient in React.js, Next.js, Node.js, Express.js, and MongoDB with hands-on experience in RESTful API development, server-side rendering (SSR), Docker, CI/CD pipelines, and Redis. Demonstrated ability to build reusable component libraries, optimize application performance, and integrate third-party services. Collaborative team player with experience in Agile workflows, Git-based version control, and cross-functional team delivery

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, MUI (Material UI)
- **Backend:** Node.js, Express.js, RESTful API Design, JWT Authentication
- **Database :** MongoDB, Mongoose ODM
- **DevOps & Cloud:** Docker, Kubernetes, Jenkins, CI/CD Pipelines, Azure DevOps
- **Caching:** Redis
- **Testing:** Jest, Postman, API Testing
- **Version Control:** Git, GitHub, Branch Management, Pull Requests, Code Reviews
- **State & Data:** TanStack Query (React Query), Context API ,Redux
- **Soft Skills:** Problem-Solving, Team Collaboration, Time Management, Communication

WORK EXPERIENCE (2+ YEAR)

MERN Stack Developer , IIFETECH Pvt. Ltd.

- Architected and delivered 3+ production-grade MERN stack applications, reducing page load time by 30% through component-level code splitting and lazy loading.
- Engineered a reusable React.js component library of 20+ UI modules, improving cross-team development speed by 40% and ensuring consistent design standards.
- Designed and implemented 15+ RESTful APIs using Node.js and Express.js, enabling seamless data exchange between frontend and backend services.
- Managed Git/GitHub workflows including branching strategies, pull requests, and code reviews across a cross-functional team of developers

MERN Stack Developer , Vyom Edge Pvt. Ltd.

- Built end-to-end full-stack web solutions with dynamic React.js frontends and scalable Node.js/Express.js backend services, supporting both mobile and desktop platforms.
- Followed clean code principles, wrote unit tests with Jest, and collaborated using Git branching to maintain a 95%+ code review pass rate
- Containerized applications using Docker and configured CI/CD pipelines via Jenkins and Azure DevOps, reducing deployment time by 50%.

KEY PROJECTS

FullMoon Holidays

<https://www.fullmoonholidays.com>

Tech Stack: React.js, Node.js, MongoDB, REST APIs

- Developed a full-featured travel booking platform (leisure & group tours) from scratch using React.js, reducing UI development time by 35% through reusable component architecture.
- Built dynamic destination, seasonal trip, and booking-flow pages with fully responsive layouts across all device sizes.
- Collaborated with backend team to integrate RESTful APIs for live trip data, booking management, and user authentication.

Inhyma

<https://www.inhyma.com/>

Tech Stack: Next.js, React.js, SSR, Tailwind CSS

- Developed a production-grade marketing website using Next.js with server-side rendering (SSR), improving SEO performance and initial page load speed.
- Built modular React components (hero sections, product grids, testimonials, contact forms) enabling a scalable, maintainable codebase.
- Improved Core Web Vitals scores by implementing lazy loading, image optimization, and code splitting

Madhuban Eco Retreat – Resort Website

<https://madhubanecoretreat.com>

Tech Stack: Next.js, Tailwind CSS, SSR, Dynamic Routing

- Engineered a responsive eco-luxury resort website with Next.js, achieving high Lighthouse performance scores through SSR and dynamic routing
- Implemented SEO-friendly meta tags, structured data, and server-rendered pages, increasing organic discoverability.

Poornam Events – Pilgrimage Travel Portal

<https://www.poornamevents.com>

Tech Stack: Next.js, Bootstrap, REST APIs

- Built a pilgrimage tour portal with package listings, informational sections, and booking pages using Next.js and Bootstrap CSS.
- Delivered a clean, accessible, faith-focused UI with integrated brand identity and fast page transitions
